She/he should be a team-player and willing to support the PhD and MA students as well as take an active part in the scientific life of the Centre of Migration Research.

OBM-NA-P-OPUS16-3.1/2022

Project description : This project focuses on examining the migration of Polish Roma and their transnational lives in the context of changes in the EU's functioning regarding the mobility regime. The situation of this minority is particularly important in the context of Great Britain leaving the European Union, which may affect their livelihoods, constraint or stimulate further mobility – to Germany or back to Poland. This research aims at shedding some light on migratory movements of that group taking an anthropological perspective and using qualitative methods – participant observation, interviews and spending considerable amount of time with migrating Roma, their friends and family who stay in Poland, as well as those Polish Roma that live in Great Britain and Germany. Applying the multi-sited ethnography with the participatory principle of working with Roma researchers on studentships, this project will analyse Polish Roma patterns of migrations, the ways with which international.
